COLLEGE OF CHARLESTON - SCHOOL OF BUSINESS
ACCT 203: FINANCIAL ACCOUNTING
Spring 2019

ACCT 203-06 Tue/Th 10:50-12:05 (Tate 133)

PROFESSOR: Jennifer Burbage, CPA
EMAIL: BurbageJ@cofc.edu and OAKS
OFFICE: Beatty Center 430
OFFICE HOURS:  Tue/Thur 9:00 am – 10:40 am and Wednesday 12 pm – 2:15 pm. I will also be willing to see you anytime you catch me in my office.

OAKS: All communications about homework, schedule, class, etc. will be sent via OAKS. Please ensure that you have a valid Oaks account and all the necessary login information. Please also ensure that you can (and frequently DO) access your College of Charleston email account. Information about the course including the syllabus, tentative schedule, class notes, and instructor’s office hours can be found on Oaks. I will also post quiz solutions, handout problems, etc. in advance of all exams so that you have the material you need to study.

REQUIRED TEXT AND MATERIALS:
- Fundamentals of Financial Accounting 5th Edition, Phillips, Libby, Libby – this is a REQUIRED textbook; however, you may (and I strongly recommend you do) use the e-book that comes with the purchase of CONNECT (much better deal than purchasing the book and the code separately).
- Access to CONNECT Accounting – registration information for your course section is on Oaks.

SYLLABUS: If you do not understand any part of this syllabus, please contact me as soon as possible. This syllabus and the accompanying course schedule are tentative, however, and subject to change either verbally or in writing.

COURSE DESCRIPTION: A survey of accounting information essential for parties to make business decisions about an organization.

COURSE LEARNING OBJECTIVES: Students should be able to do the following:
1. Analyze basic financial transactions, make journal entries, and produce financial statements after subjecting the transactions to the accounting cycle.
2. Demonstrate an understanding of and proficiency in producing the income statement, retained earnings statement, balance sheet, and statement of cash flows.
3. Demonstrate a basic understanding of the foundational financial accounting principles and concepts including matching, revenue recognition, historical cost, conservatism, full disclosure, inventory cost flows and valuation, bad debt accounting, time value of money, depreciation, and fair market value.
4. Demonstrate an understanding of internal controls, the financial reporting environment including key regulatory institutions, and the importance of ethical behavior by accountants within the financial reporting environment.
5. Demonstrate an understanding of the role that information processing technology plays in the contemporary financial reporting environment.
The readings and assignments for ACCT 203 support the undergraduate accounting program’s first learning goal of **conveying functional knowledge** of basic financial accounting. The course is consistent with the **quantitative fluency** learning goal of the School of Business.

**PREREQUISITES:** Sophomore standing

**GRADING:** It is your responsibility to read the syllabus and learn the course policies and procedures. Not knowing course policies and procedures is not an excuse for not following class guidelines and will result in grading penalties.

</table>
**EXAMS:**

Exams are intended to measure your understanding of the topic areas and subject matter in the field being studied. Your ability to solve problems similar to those found in the text represents only a small, but important, portion of this understanding. Concepts and theories are an integral part of your education. When you are working in business and industry, you will rarely encounter problems presented precisely as they are in class or in the textbook. Therefore, the ability to transfer knowledge is essential. This ability is tested on exams.

Exams are only to be taken by students who are enrolled in the course. Any student who drops the class or is not enrolled in the class should not sit for an exam. Violations of this policy will be reported to the Honor Court.

**ADDITIONAL POLICIES FOR EXAMS:**

- If you have come to class (and paid attention), done the homework problems (both ungraded practice problems and the graded problems) and studied for the quizzes, you will have the knowledge you need for each exam.
- During the exam, I will only answer clarifying questions.
- Cell phones must be turned off and put away in book bags, backpacks, or purses.
- **You may not program formulas into calculators. Only use calculators for addition, subtraction, multiplication and division. You may not use a cell phone as a calculator.**
- Students who miss an exam due to a previously scheduled reason (such as an athlete missing an exam due to an out of town game), must communicate with me in advance of the exam to determine when the student will take the exam. Do NOT contact me after you have missed the exam.
- **NO MAKE-UP TESTS ARE GIVEN.** If there are extenuating circumstances requiring you to miss an exam, please see me, before the exam. An absence is considered unexcused unless and until it is classified as excused through the Office of the Dean of Undergraduate Studies.
- Final examinations must be administered only at the time and in the place stated on the Examination Schedule, except by written permission of the Dean.
- Exams may consist of multiple choice, short answer, and/or essay/problem questions. The questions will come from course material covered in class discussions, assigned readings, and from the integration of material from any homework assignments, cases, projects and exercises.
- Exams are the property of the professor and should never be removed from the classroom or the professor's office under any circumstances. Removal of an exam will, at a minimum, result in the change of your exam grade to a zero. Violations of this policy will also be reported to the Honor Court.
- Students with disabilities who have the proper documentation through SNAP services for extended exam times will be required to take the exams through SNAP services (assuming you want to use the additional time, if not you are welcome to take the exam with your classmates). Those students who wish to take exams in the SNAP office must schedule their exams and inform me when they will be taken by the class period before the class period during which the exam is scheduled.
HOMEWORK:

Homework assignments will be due according to the tentative class schedule – I will announce any changes in class and will also send reminders and changes via Oaks. You will do the homework using “Connect” so you will need to ensure that you have registered for Connect access. The homework is due by the end of the day on the due date - Connect has these dates/times (per the attached schedule). Late submissions will not be accepted. Connect will allow you to work through problems a few times to get them correct and earn the full credit. I will download the results from Connect to calculate your overall homework grade. Once I have downloaded the results, do NOT ask me for an extension – I will download the results after the due date and it is your responsibility to meet the deadlines for your homework assignments (I will work with you during the first week to ensure that you have access). Although only the “graded homework” must be turned in, it is your responsibility to ensure that you can complete the “ungraded practice” as well – accounting will be learned best by practice and repetition. I will work several examples/exercises in class as part of the lecture but I expect you to come prepared, having attempted the practice problems yourselves, so that you can get the most out of the classroom lectures.

Each homework assignment is worth the same number of points in the class. There are 50 points total for homework and there are 12 total assignments. Your grade will include your 10 best assignment grades.

ATTENDANCE:

This material in this class builds on itself and I will frequently work through problems (both assigned and unassigned examples) so regular class attendance is important. I will take attendance on a periodic basis. To earn credit for attendance, you must be present when I take attendance. Each attendance day is worth the same number of points. Please also refer to “additional policies” – if I notice you texting, I will not embarrass you during class, but your actions will be reflected in your attendance grade.

Should you have to miss a class period, it is your responsibility to get your assignments turned in on time (before class) and to find out what you missed. You should contact one of your classmates to find out what you missed. I am always happy to discuss specific questions you may have, but I am not willing to do the lecture again just because you missed the class. If you must miss class for an extended period of time due to extenuating circumstances, please see me.

QUIZZES:

There will be several short quizzes (unless otherwise discussed – see course schedule for tentative quiz dates) at the beginning of the class. The content of these quizzes may include any material covered since the last quiz (or exam). You must be present to take the quiz. If you are late for class, you will still be required to turn in your quiz with the rest of the class – these are 5-10 minute quizzes so being late can be detrimental to your quiz grade. Studying for and taking the quizzes should be very beneficial to your performance on the exams.

If you miss a quiz, your quiz grade will be a ‘0’. I will likely drop the lowest quiz grade.
COLLEGE OF CHARLESTON HONOR CODE AND ACADEMIC INTEGRITY:

Lying, cheating, attempted cheating, and plagiarism are violations of our Honor Code that, when identified, are investigated. Each incident will be examined to determine the degree of deception involved.

Incidents where the instructor determines the student’s actions are related more to a misunderstanding will handled by the instructor. A written intervention designed to help prevent the student from repeating the error will be given to the student. The intervention, submitted by form and signed both by the instructor and the student, will be forwarded to the Dean of Students and placed in the student’s file.

Cases of suspected academic dishonesty will be reported directly by the instructor and/or others having knowledge of the incident to the Dean of Students. A student found responsible by the Honor Board for academic dishonesty will receive a XXF in the course, indicating failure of the course due to academic dishonesty. This grade will appear on the student’s transcript for two years after which the student may petition for the XX to be expunged. The F is permanent. The student may also be placed on disciplinary probation, suspended (temporary removal) or expelled (permanent removal) from the College by the Honor Board.

**Students should be aware that unauthorized collaboration—working together without permission—is a form of cheating.** Unless the instructor specifies that students can work together on an assignment, quiz and/or test, no collaboration during the completion of the assignment is permitted. Other forms of cheating include possessing or using an unauthorized study aid (which could include accessing information via a cell phone or computer), copying from others’ exams, fabricating data, and giving unauthorized assistance.

Research conducted and/or papers written for other classes cannot be used in whole or in part for any assignment in this class without obtaining prior permission from the instructor.

Students can find the complete Honor Code and all related processes in the Student Handbook at [http://studentaffairs.cofc.edu/honor-system/studenthandbook/index.php](http://studentaffairs.cofc.edu/honor-system/studenthandbook/index.php)

DISABILITY STATEMENT:

The College will make reasonable accommodations for persons with documented disabilities. Students should apply for services at the Center for Disability Services located on the first floor of the Lightsey Center, Suite 104. Students approved for accommodations should notify their professors as quickly as possible.

ADDITIONAL POLICIES:

- **Always bring your books to class.** I will frequently refer to figures or problems in the book during class (your ebook is available through Connect).
- **Please turn off your cell phones at the beginning of class.** It is disruptive to the class and to me for you to be using cell phones or texting during class. Additionally, as noted above, your attendance grade will be impacted if I notice you texting during class (and it is not difficult for me to notice texting – even when you think you are being subtle).
• Tape recorders or other recording media are not permitted in the classroom. Under no circumstances is it permissible to tape record lectures.

• If you have a conflict with my regularly scheduled office hours and need to see me, please let me know and I will be willing to work with you to find a time suitable for both us. The more notice I have for an appointment, the better the chance that I can be available.

• I will not provide scores for any assignment, exam, or quiz via the telephone or by email. The Family Educational Rights and Privacy Act (http://www.ed.gov/offices/OII/fpco/ferpa/) prohibits me from discussing your grades in this course with your parents, with other members of your family, or with your friends.

• This class will contribute to you becoming a respected professional; therefore, I fully expect you to behave professionally. Please do not sleep in class, talk in class, monopolize class time or make disrespectful comments. I will not embarrass you during class; however, I am observant and will note any of these actions. I do not expect you to be perfect, but if your behavior is obvious enough to distract me, then it is obvious enough to distract others.
