Syllabus for BLAW 399 Extended Summer 2017

Individual Enrollment BLAW 399

Project Title: Global Business Problem Solving

Faculty Supervisor: Roxane DeLaurell

Student:

Project description:

Student will spend 10 weeks serving as an intern for Booz Allen Hamilton (BAH) in North Charleston working as part of an interdisciplinary team to solve a current global business issue. The issue will be assigned at the time of the internship. Student will work in a six member team comprised of students from engineering, business, and other disciplines. At the conclusion of the ten weeks, the student and her group will make a formal presentation to the senior executives of BAH.

The student will compose and upload to OAKS weekly reflections on her experiences and how they are impacting her career goals, her academic development and her understanding of global business. She will also explain how her skills have been improved by the experience.

Project Culmination will be a professional presentation made to senior executives at the company. The student will upload to the Honors Oaks Dropbox what the company will allow consistent with confidentiality rules. She will also provide written confirmation in the form of e-mails from her direct supervisor at the company to her faculty supervisor attesting to the quality and level of her participation in the project.

Student will be graded by faculty supervisor. Student must complete nine weekly reflections which reflections must be uploaded every week after the first full week of the internship. The final grade will be based on the quality of these weekly reflections, keeping to the schedule, written attestations from the internship supervisor that student is putting in the 150 hours and a review of the final project culmination.
