Course Syllabus – Spring 2019

Section 401-01, CRN 20675, Tuesday 4:00-6:45pm (Ed Cntr 101)

Professor: Angela Passarelli, Ph.D.
Office: Beatty Center 428
Phone: 843-953-1909
Email: PassarelliAM@cofc.edu
Office hours: Tuesday: 1:00-4:00pm, Thursday 1:00-3:00pm, and by appointment
(2) “Emotional and Social Competency Inventory – University Version” (Boyatzis & Goleman); Must be purchased from the KornFerry® at link on OAKS
(3) Selected Business Best-seller

COURSE DESCRIPTION
An experiential learning design for studying the impact individuals, groups and structures have on behavior within the organization for the purpose of applying that knowledge toward improving an organization’s effectiveness.

PREREQUISITE
Senior standing, MGMT 301

COURSE OBJECTIVES
In today’s increasingly complex and fast-paced environment, the success and sustainability of business depends on the ability of organizational actors to learn and adapt quickly to new and changing situations. Organizational Behavior & Change examines the human and behavioral elements of change, such as individual-level qualities people bring into organizations, the interactive processes of working with others, and the nature of the organizational form or structure. With a better understanding of these elements, you will be able to make a positive impact as a change agent who can address the challenge of driving growth and success.

At the center of this action-oriented course is a process of self-directed learning. You will get to know yourself better through a series of experiential activities, assessment exercises, group discussions and peer coaching. You will also hear from managers and leaders in industry who will join us as guest speakers. The process we will follow in the course will help you throughout your life and career in understanding and formulating your personal vision, in assessing your skills and abilities, and in designing meaningful learning plans to reach your personal and professional development objectives. Ultimately, this course is about developing the leader within you so that you are best positioned to lead positive change in organizations.

In addition to the self, we will look at behavior in organizations at higher levels of analysis. You
*Note that my office hours will be from 2-3pm on the first Thursday and second Tuesday of each month due to faculty meetings. will deepen and broaden your knowledge of organization behavior and management from MGMT 301 in order to make reasoned decisions about people-related issues in organizations. To this end, you are encouraged to adopt the attitude that people are the vehicle by which organizational goals are accomplished, rather than something undesirable that interferes with the logic of organizations. In other words, people are your opportunity, not your problem. Further, you are encouraged to understand yourself and your value system as a key factor in interactions with others. At times your attitudes and values may come into conflict with established science. You are encouraged to actively reconcile these differences.

SCHOOL OF BUSINESS LEARNING GOALS
This course addresses the School of Business learning goals as follows:

• Communication Skills: Via book discussions and peer coaching, students will demonstrate the ability, via both written and spoken word, to effectively present, critique, and defend ideas in a cogent, persuasive manner.
• Quantitative Fluency: Via analysis of multirater feedback results, students will demonstrate competency in logical reasoning and data analysis skills. (Addressed via assessment of multirater feedback.)
• Global and Civic Responsibility: Via in-class dialogue and company research regarding business as an agent of social change, students will be able to identify and define social, ethical, environmental and economic challenges at local, national and international levels. Students will also be able to integrate knowledge and skills in addressing these issues.
• Intellectual Innovation & Creativity: Via a management decision-making simulation and case discussions, students will be able to demonstrate their resourcefulness and originality in addressing extemporaneous problems.
• Synthesis: Via production of a comprehensive vision & values essay, students will be able to integrate knowledge from multiple disciplines incorporating learning from both classroom and non-classroom settings in the completion of complex and comprehensive tasks.

TEACHING PHILOSOPHY
I believe in the power of education to transform lives. This course is one step in deepening your understanding of yourself and the world around you. I acknowledge that every student comes to this course as a whole person with varied interests, experiences, talents, goals, and commitments. My aim as an instructor is two-fold: (1) to leverage these qualities as a launching pad for your intellectual and personal growth and (2) to build a classroom community where you learn not only from me, but also from one another. It is a great privilege to be in a college classroom – let’s make the most of our time together!

COURSE POLICIES & EXPECTATIONS
Your participation in this course is vital not only to your own learning, but also to that of your classmates. Thus, it is important that you attend class regularly. I expect you to:

• Prepare for class by doing readings and assigned exercises ahead of time
• Arrive promptly and be present for the entirety of the class session
• Treat your classmates and me with respect
• Listen actively and make meaningful contributions to the conversation
• Demonstrate responsibility for your progress in the course by submitting work on time. Late assignments will not be accepted without prior written approval of the instructor.

The classroom is a microcosm of behavior in the workplace and therefor a great space to experiment with new behaviors. In other words, if your typical mode of “participation” is to comment frequently, try staying quiet until a few other classmates have spoken. Or, if your typical mode is to remain quiet, try speaking up. Consider these mini learning experiments for yourself.

COURSE ASSIGNMENT SUMMARY
The following assignments are described in detail under the “Assignments” tab on OAKs. Due dates are listed on the schedule below.

**Vision & Values Essay.** You will individually produce a 7-10 page paper integrating insights from reflective writing and in-class exercises regarding your ideal self.

**Class Exercises.** You will complete a number of reflective exercises, simulations, and assessments in this course. These are important to your learning, as well as that of your peers. You should account for out-of-class time to prepare for certain exercises, such as the management decision-making simulation and multirater feedback (see ESCI-U). To assess your level of preparation, “pop-quizzes” will be administered periodically. Quizzes will not be announced in advance. You are responsible for bringing all assignments and an internet-capable device for completion of quizzes in class.

**Book Circle.** Working in small teams, you will become conversant with materials and concepts in a selected best-selling book by a thought leader in organizational effectiveness, design or change. Each team will provide weekly summaries of a series of in-class team discussions, culminating in a 20-minute class presentation applying book content to a real-life organizational change effort.

**Learning Plan.** As a final assignment, you will synthesize your learning in the course and present a plan to guide your development in the future.

**Participation.** Participation will be rated by the instructor based on:
1. Attendance - one class absence is permissible with no penalty to your participation grade. Additional absences will negatively affect your participation grade.
2. Quality of contributions to the learning environment based on agreed upon expectations.

**CENTER FOR STUDENT LEARNING**
I encourage you to utilize the Center for Student Learning’s (CSL) academic support services for assistance in speaking & writing skills, study strategies, and course content. Students of all abilities have become more successful using these programs throughout their academic career and the services are available to you at no additional cost. For more information regarding these services please visit the CSL website at http://csl.cofc.edu.

**DISABILITY ACCOMMODATIONS**
The College will make reasonable accommodations for persons with documented disabilities. Students should apply at the Center for Disability Services / SNAP, located on the first floor of the Lightsey Center, Suite 104. Students approved for accommodations are responsible for notifying me as soon as possible and for contacting me one week before accommodation is needed.

**COLLEGE OF CHARLESTON HONOR CODE & ACADEMIC INTEGRITY**
Lying, cheating, attempted cheating, and plagiarism are violations of our Honor Code that, when identified, are investigated. Each incident will be examined to determine the degree of deception involved.

Incidents where the instructor determines the student’s actions are related more to a misunderstanding will be handled by the instructor. A written intervention designed to help prevent the student from repeating the error will be given to the student. The intervention, submitted by form and signed both by the instructor and the student, will be forwarded to the Dean of Students and placed in the student’s file.

Cases of suspected academic dishonesty will be reported directly by the instructor and/or others having knowledge of the incident to the Dean of Students. A student found responsible by the Honor Board for academic dishonesty will receive a XF in the course, indicating failure of the course due to academic dishonesty. This grade will appear on the student’s transcript for two years after which the student may petition for the X to be expunged. The student may also be placed on disciplinary probation, suspended (temporary removal) or expelled (permanent removal) from the College by the Honor Board.

Students should be aware that unauthorized collaboration—working together without permission—is a form of cheating. Unless the instructor specifies that students can work together on an assignment, quiz and/or test, no collaboration during the completion of the assignment is permitted. Other forms of cheating include possessing or using an unauthorized study aid (which could include accessing information via a cell phone or computer), copying from others’ exams, fabricating data, and giving unauthorized assistance. Research conducted and/or papers written for other classes cannot be used in whole or in part for any assignment in this class without obtaining prior permission from the instructor.
Students can find the complete Honor Code and all related processes in the Student Handbook at http://studentaffairs.cofc.edu/honor-system/studenthandbook/index.php
