doctorhartley@comcast.net (home, put DSCI 304 in subject box)

Course Catalog Description:
The organization and operation of the procurement function and the acquisition and management of materials. Emphasis is placed on quality and continuous improvement, quantity and inventory issues, delivery strategy, pricing and cost management, supplier selection and evaluation, global supply issues, legal and ethical considerations, and standards of performance.

Prerequisites: Junior Standing (60 or more completed hours)

Required Text: Purchasing and Supply Management, 15th Edition

Text Web Site: www.mhhe.com/johnson15e

Grading Scale:
A (4.0) 93-100  A- (3.7) 90-92.99  B+ (3.3) 88-89.99
B (3.0) 83-87.99  B- (2.7) 80-82.99  C+ (2.3) 78-79.99
C (2.0) 73-77.99  C- (1.7) 70-72.99  D+ (1.3) 68-69.99
D (1.0) 63-67.99  D- (0.7) 60-62.99  F (0.0) 0-59.99

Approximate Grade Composition: EXAMS (3)  60% (equal weight)
SAP Material 10%
Other 30%

Learning Objectives:

a. To understand the objectives, activities, and responsibilities of supply management, and its various organizational structures.
b. To understand the role of quality in supply management, quality management tools, quality standards, and quality certification and awards program.
c. To understand the role of logistics in supply management, transportation industry segments, selection methods, logistics strategy and organization.
d. To understand how suppliers establish price, government’s influence on pricing, the competitive bidding process, discounts, strategic cost management, and negotiation.
e. To understand the supplier selection decision, identifying evaluating potential sources, supplier development, evaluating potential sources, measuring supplier performance, supplier relations, partnerships, and strategic alliances.
f. To understand buyer and seller legal authority and liability, the Uniform Commercial Code, common law, alternative dispute resolution, and ethics in supply management.
EXAMS: There are three (3) regular exams during the semester, and will cover outlined material from the text as well as any talks by guest speakers, and/or required readings, handouts or other assignments. The exams are of equal weight, and the last exam is NOT comprehensive. Typical exams will be comprised of an equally weighted combination of extended discussion questions, short answer questions, and objective questions. The extended discussion portion will be assigned as a take-home portion prior to exam day to allow Internet and/or library research, and is to be turned in with your in-class exam for credit.

OTHER includes turning in approximately 10-12 assignments, including preparations of cases, outside Internet and library research on specific topic areas of the course, and reports from any required readings. OTHER also includes attendance, promptness, and CLASS PARTICIPATION. Note that habitual tardiness and/or absences WILL affect the class participation and thus the “OTHER” portion of your grade. Actual, printed copies of your assignments are expected to be turned in on the day we cover the assignment in class. E-mail will only be accepted as a back-up method for turn in. When e-mailing homework as your last resort, use hartley@cofc.edu, and in the subject box, type MKTG333, the assignment description, and your name.

SAP EXERCISE: We will incorporate the SAP enterprise resources planning software system into the course to familiarize you with this powerful tool used by 335,000 corporate customers in organizations in 190 countries worldwide. 75% of the world’s transactions are managed on SAP, and most of our School of Business employers want you to be SAP capable when you graduate.

Late Assignments: Assignments handed in for credit after the due date will be penalized 50% per 24 hours late (or fraction thereof). Turn assignments in on time, please.

Attendance Policy: Prompt and consistent attendance is necessary for this course. Attendance sheets will be used and it is your responsibility to sign them each class meeting. Excessive absences will result as follows:

Two Days a Week Sections:
Absences #1, 2: Allowed for any and all reasons. No need to explain.
Absence #3, 4: 3 points deducted from your final course average per class missed.
Absence #5 and higher: 6 more points off your final course average per each class missed.

One Day a Week Sections:
Absence #1: Allowed for any and all reasons. No need to explain.
Absence #2: 3 points deducted from your final course average.
Absence #3 and higher: 6 more points off your final course average per each class missed.

Also, you WILL be responsible for any assignments due when you’re absent.

Honor Code: Cheating in ANY form is NOT allowed, and will be rewarded, AT A MINIMUM, with a grade of F in the course. If copying is involved, both parties will be judged equally guilty. Plagiarism is also NOT allowed on any assignment. This is VERY serious business, and I cannot impress upon you enough that cheating CAN END your college career. Just think about that.

Make-Up Exams: Regular exams WILL NOT be made up, for ANY reason, after the exam has been administered. Should you miss a regular exam without prior notice to me, your grade will be zero (0) unless you substitute an overall comprehensive final exam, at my discretion, in its place. You really, really don’t want to do this. However, if you let me know well ahead of time that you will miss a scheduled exam, I’ll make every effort to re-schedule it prior to the full class taking it. You FORFEIT the re-schedule if you don’t take the exam prior to the full class taking it.
Grading Errors: If an error is made in grading your exam, the mistake will gladly be corrected. It is YOUR responsibility to detect any error and bring it to my attention ON THE DAY the exam is returned to you. You FORFEIT your right to appeal errors by being absent on the day the exam is returned in class, or by waiting until later in the semester to contact me. If any extra points are awarded ON THE DAY the exam is returned in class, you LOSE the points by being absent.

SNAP Accommodations: Any student certified by the SNAP Office at the College for a special course accommodation must provide appropriate documentation to me WELL PRIOR to any exam in which the student requests the SNAP accommodation (i.e., extra time to complete the exam). It is your responsibility to schedule any necessary arrangements at the SNAP office. It is also your responsibility to pick up the exam from me prior to the exam being administered in class. I will NOT deliver exams to the SNAP testing office.

Basic Requirements:
1. Bring your textbook to class each day.
2. Keep a binder or folder for your class notes and handouts. Bring it to class each day.
3. Keep all of your hand-in assignments backed up during the semester.
4. If you don't have one already, obtain an off-campus e-mail account immediately.
5. Be on time. Habitual tardiness WILL affect class participation portion of your grade.

Finally: If a problem develops during the course or if you feel you need extra help with concepts, don't hesitate to come to my office for help. Use my office hours for your benefit. That's why I have them. This IS NOT a hard, heavily quantitative course, it’s a FUN and very useful course, and I’m positive you will enjoy it!
General Course Outline:

→ **EXAM 1 Material**
1. **PURCHASING AND SUPPLY MANAGEMENT**: Purchasing and supply management, supply contribution, supply qualifications and associations, challenges ahead.
2. **SUPPLY STRATEGY**: Strategic planning and its challenges, risk management, strategic components.
3. **SUPPLY ORGANIZATION**: Objectives of supply management, organizational structures, supply activities and responsibilities, supply teams.
