ATTENDANCE AND PARTICIPATION:
Because we do not meet face-to-face, it is very important that you maintain an active presence in the class, including posting to and reading discussion board threads. I will post topics for discussion from time to time. All students are expected to post at least one original comment on the topic and reply to comments posted by other students to earn full credit. You will not earn credit for just agreeing or disagreeing with others without providing any justification. The goal of this discussion is to learn about current happenings in the real estate market and to foster a collective learning environment. This participation constitutes 5% of the overall grade. You should log into the course at least 5 days a week in order to be successful. Note that I can see when you log into OAKS and can monitor your progress. Also, do not assume that this is an easy class because it is being offered online, or during the summer! The material is quite challenging and will demand a lot of effort on your part to be successful. Remember that discipline and hard work are key to being successful in this course.
