"My undergraduate accounting education with its attentive and available professors set me up for a successful fifth year in the Accountancy Graduate Program. The accounting programs provided me with excellent career opportunities and set the groundwork for my ideal job placement at Grant Thornton- a top tier international accounting firm. Through the fall and spring thesis system my research has allowed me to concentrate on forensic accounting-my intended area of practice. The Accountancy European Study Abroad Program provided an excellent bridge from my undergraduate studies to graduate school as well as enlightening me on the international dimensions of accounting."

Lily English ’18
Forensic Accounting Associate
Grant Thornton
